THE ALL-ELECTRIC CHEVROLET BOLT EV

THE FIRST AFFORDABLE 238-MILE RANGE ELECTRIC VEHICLE IS HERE.

With an EPA-estimated range of 238 electric miles, Bolt EV finally allows you to drive an electric vehicle like you would any other vehicle. Its roomy interior seats five passengers and offers up to 56.6 cubic feet of cargo room,² making it designed for everyday life. Add in the latest technology features like Regen On Demand¹ and One Pedal Driving and it's clear that Bolt EV is not just a great electric vehicle, it's a great vehicle, period.

¹ EPA-estimated 238-mile EV range. Your actual range may vary based on several factors, including temperature, terrain, and driving technique.
² Cargo and load capacity limited by weight and distribution.
